The Heathkit HR-10B is a 5-band, 7-tube amateur radio receiver manufactured from 1967 to 1975 and the companion to Heathkit's DX-60B transmitter. Essentially, the HR-10B design is the same as its predecessor, the HR-10 -- the only change seems to be that the top cover was painted with a wrinkly finish rather than the smooth finish of the ...

Recent addition 11/16/2019 is a Heathkit BR-2, 550-1600Khz AM receiver. I paid \$29 for it on eBay and the receiver works great. What you see in the picture below the HR-10B receiver picture is how I received the BR-2. I made a video showing the receiver working. Go to my video page and scroll down the page.

Heathkit HG-10B Radio Transmitter for sale online | eBay

The full restoration of my Heathkit HR-10B ham band receive is complete. I ended up having to replace the original front panel with one that was in very good physical condition except for a small hole drilled above the CAL RESET label. I was also able to find an original HR-10B RED dial pointer. The front panel and RED dial
