Industrial Locomotives & Railways of the South and West of ...

Along with this came the necessity for non-mainline railways: branch lines and industrial railways, to keep railway companies and other businesses active and working. From the mid-1800s to the 1960s, steam locomotives were built by companies for industrial use or for use by private contractors. Many of these locomotives are preserved today, making up the majority of preserved steam locomotives in the United Kingdom.
