Books :: Programming :: Assembly Language :: IDA Pro Book ...

Hailed by the creator of IDA Pro as the "long-awaited" and "information-packed" guide to IDA, The IDA Pro Book covers everything from the very first steps to advanced automation techniques. While other disassemblers slow your analysis with inflexibility, IDA invites you to customize its output for improved readability and usefulness.

The IDA Pro Book [Book] - O'Reilly Online Learning

The book explains the just about any aspect of IDA Pro, from the surface (the GUI) deep into the bowels of it (writing plugins and processor modules, certain internals). You could just as well let IDA disassemble itself (remember, the license allows it), but this book will make the transfer of knowledge easier and faster.
