buying them for no money. Note: Amazon often has the same promotions running for free eBooks, so if you prefer Kindle, search Amazon and check. If they're on sale in both the Amazon and Google Play bookstores, you could also download them both.

### **What Is Extruded Horse Feed**

The extrusion process makes the starches and other nutrients in the feed easier for a horse to digest and absorb. Horses who have dental problems or digestive issues may do better on an extruded feed. In addition, the “airy” texture of extruded feeds means that a horse can be fed a larger quantity of food that provides fewer calories.

### **Extruded feed explained - The Horse Owner's Resource**

Extruded feeds are more bulky than traditional sweet feeds or pellets, which reduces how fast horses eat their grain. Horses don't bolt down extruded feeds as quickly as other feeds.

Extruded feeds pass through the digestive tract slower than other feedings, once again, improving digestion of the feeds.

### **Benefits of Extruded Horse Feeds**

Extrusion is a process in which feed is cooked under high pressure with high temperatures for a short time. A feed slurry is created, which is then pushed through a small die while it is still hot; the release of pressure after coming through the die causes the feed to expand.

### **Extruded horse feeds pros and cons - IVC Journal**

Extruded feeds tend to soak the fastest and fall apart the easiest, which is advantageous for horses with poor dentition. Pellets and textured feeds may require slightly longer soaking times, depending on the product. All feeds forms can deliver essential nutrients in a palatable way. The right feed for a horse depends on his individual needs, including workload, body

One of the most recently introduced forms of horse feed are extruded products. Extrusion is a relatively complex cooking and drying process that is commonly used in both the human and pet food industry. Extrusion utilizes a combination of steam and friction as heat sources to cook a formula under pressure.
